

FLEET TRACKING AlphaTrak™ AT370

The AlphaTrak™ AT370 is ideal for most businesses. The AT370 is designed as a universal solution for 24/7 web-based visibility and continuous tracking. This real-time device is available with your choice of a cost effective 1, 2 or 5 minute rate plan.

The AlphaTrak™ AT370 is an installed device. With its antennas internal to the AT370, disabling or tampering with the device is difficult. Additionally, the installer has improved flexibility with the mounting location of the device within the vehicle.

For other AlphaTrak™ options, see AT390 and AT600 for more control and sensor options, AT550 for cold chain, or AT400 for Plug and play into OBD-II port. See AT312, and BAT60 for asset tracking.

AlphaTrak™ is your best solution for tracking vehicles and assets across North America. The personal web portal is easy to use, and provides owners and fleet managers the ability to track vehicles real-time. Optionally control ignition and door locks, as well as monitor key functions such as plows, liftgates, and more.

AlphaTrak™ can also alert you via SMS and IVR access when vehicles and assets exceed speed parameters or leave pre-determined areas. Detailed reporting helps owners to manage better, protect against liability, and save on vehicle insurance. AlphaTrak™ can pay for itself alone in your insurance cost savings.
